Assignment 12 – XML Validation

Aim:

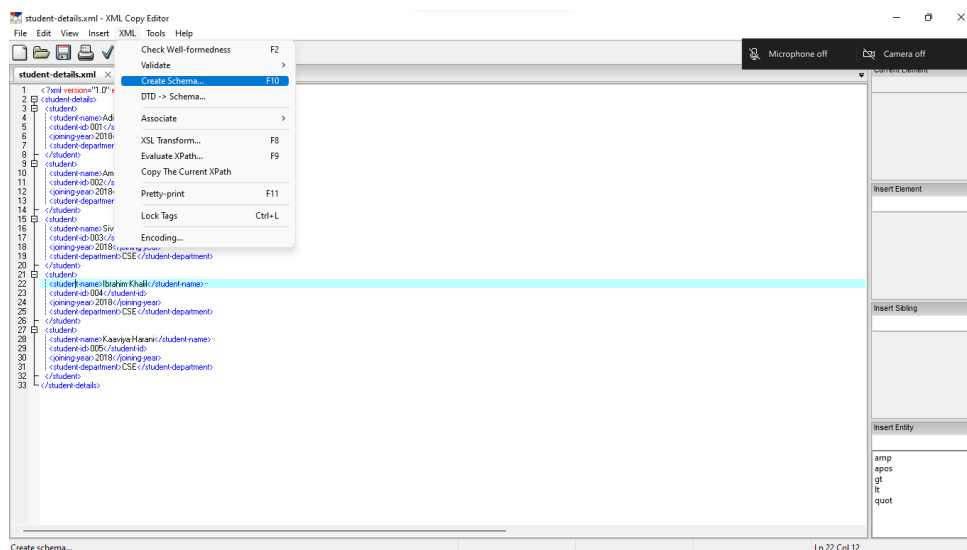

To create an XML file for student details, generating a schema for it and validating it using XML Copy Editor

Procedure:

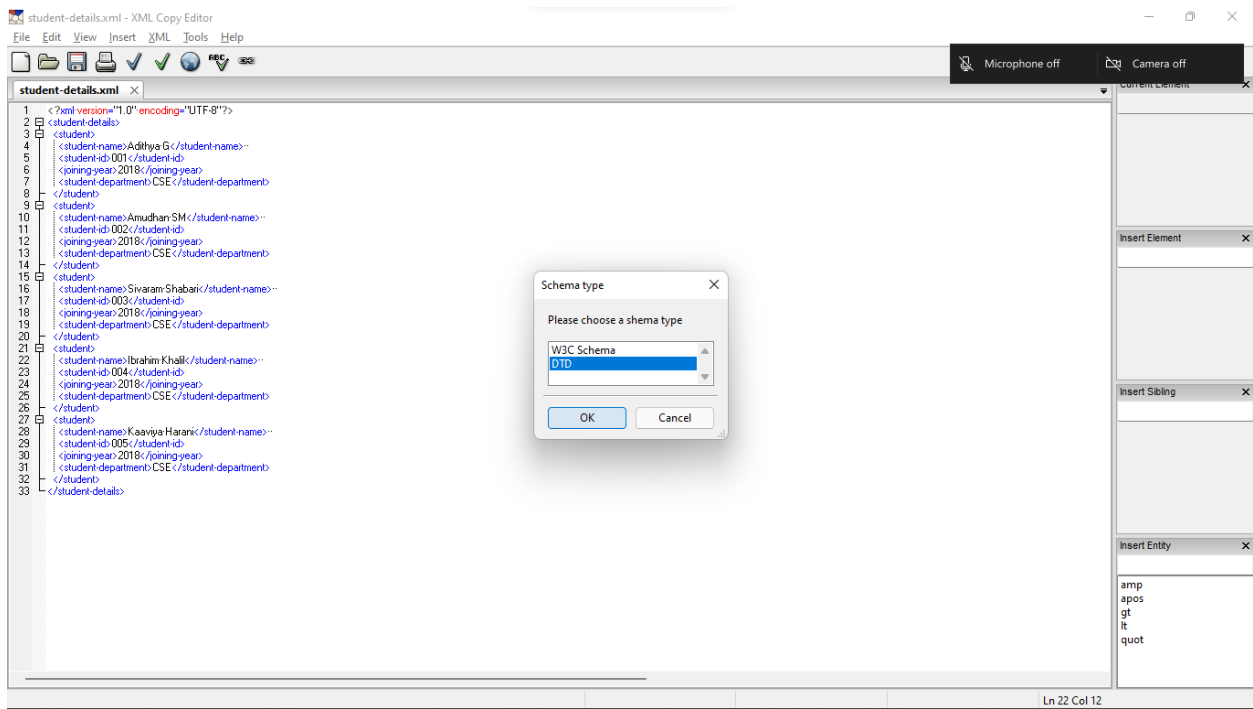

- Create the xml file using xml copy editor

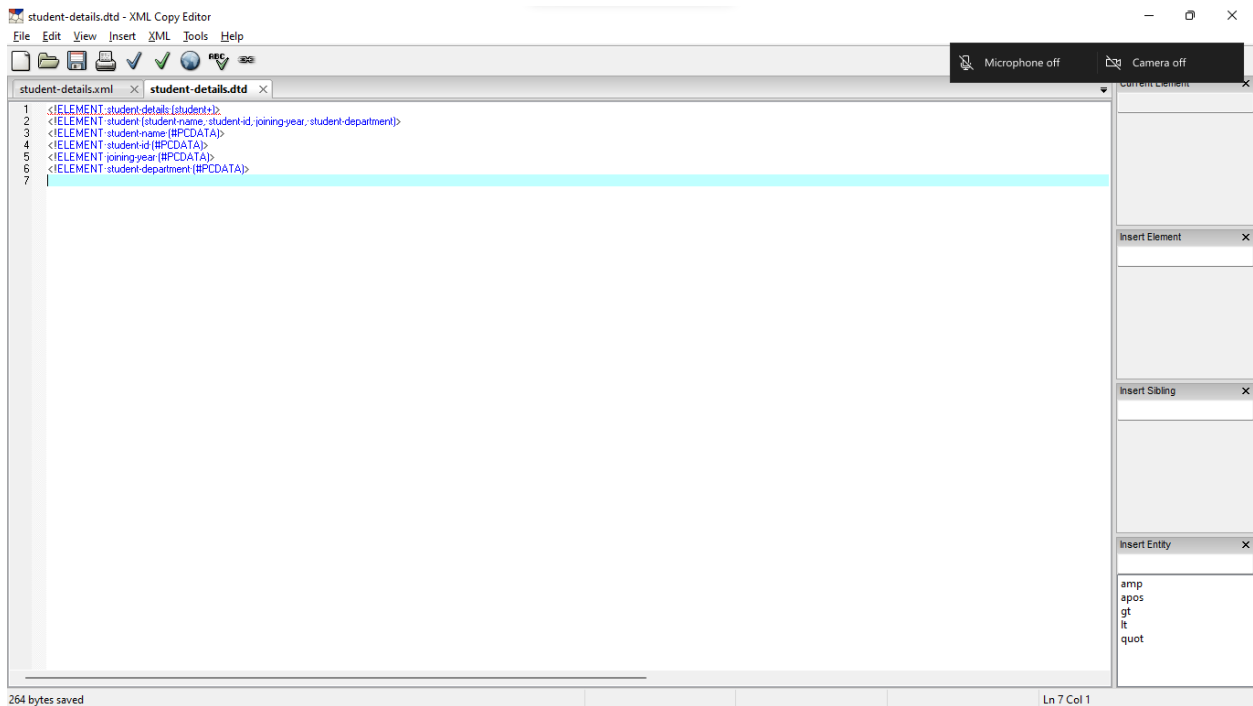

- Click on XML > Create Schema

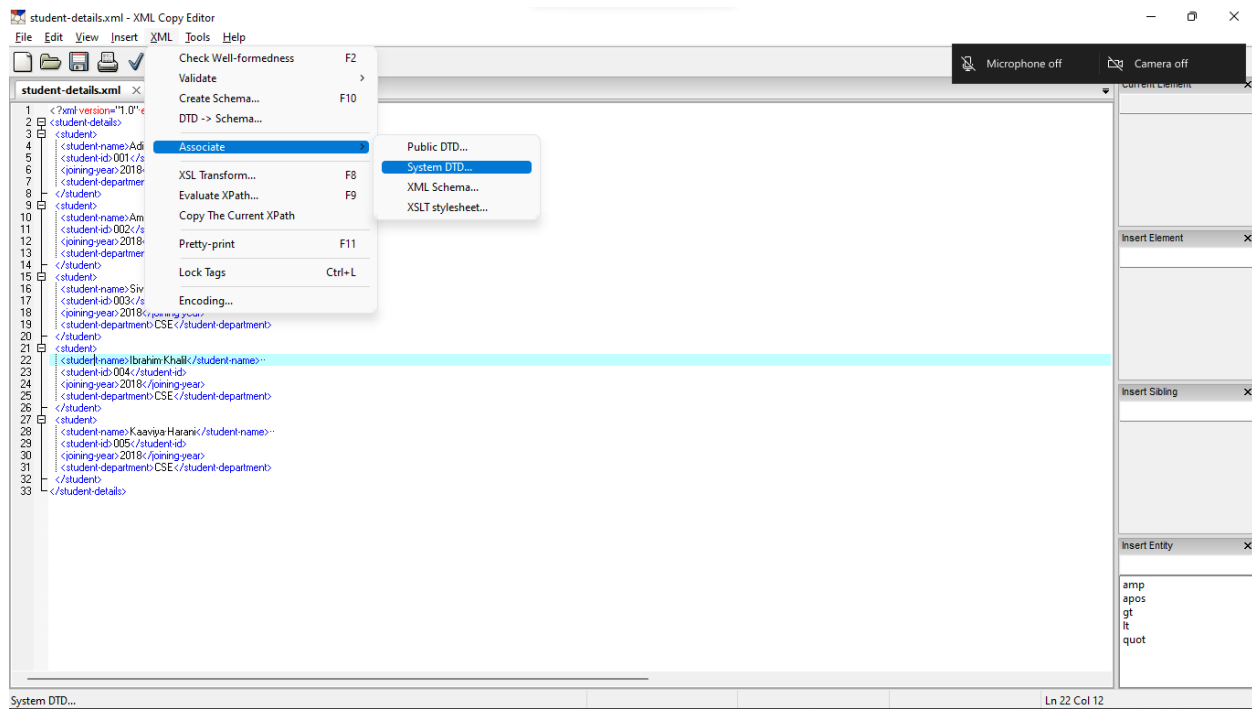

- Click on DTD and then OK

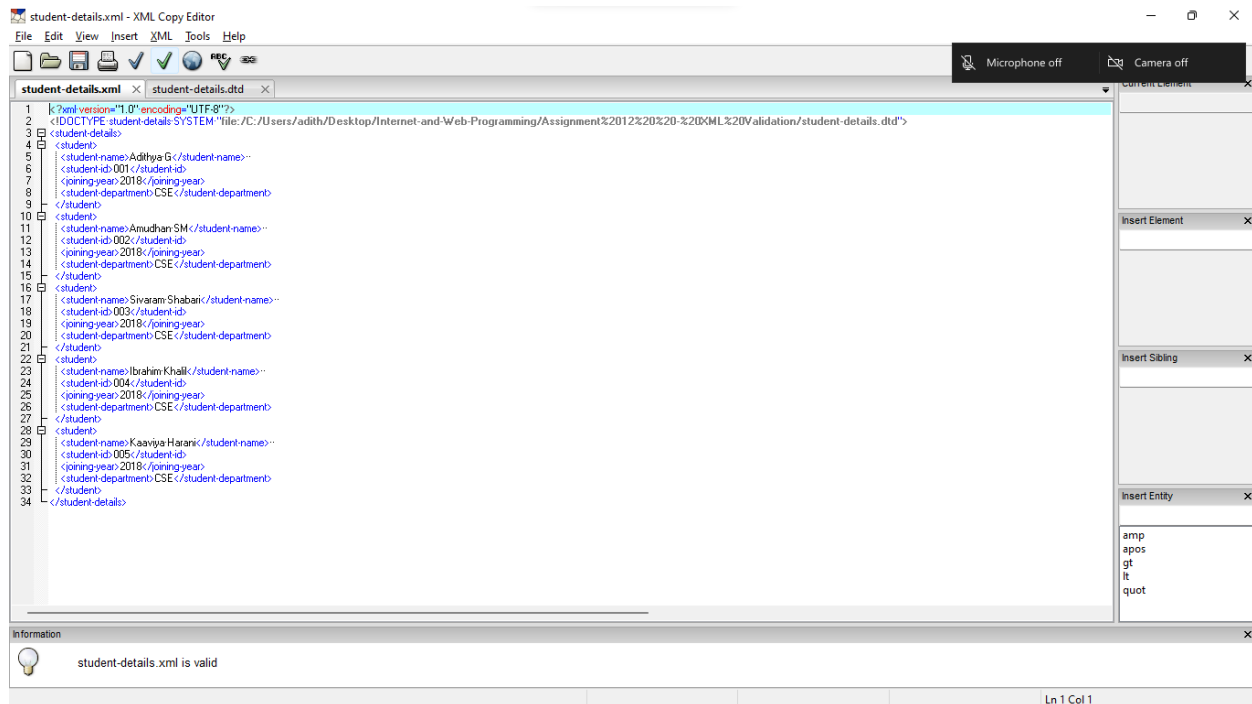

- The schema is generated

- Go to the .xml file click on XML > Associate and link the generated .dtd file

- Click on validate schema and a pop should appear at the bottom of the screen

Result:

Thus, an XML document and its schema were created and validated using XML Copy Editor
